HAWAIIAN NEWS CO., LTD.**NEWS OF THE WATERFRONT****THE MISSING HELEN BREWER.**

Speculation on the chances for the bark Helen Brewer reaching her destination—Delaware Breakwater—was the theme of waterfront discussion yesterday, and opinion largely runs on the vessel arriving safely, owing to the circumstances surrounding the long voyage of the Juteopolis from Iloilo for the same destination. The hundred and twenty-eight days consumed by the Juteopolis in the run between Iloilo and Honolulu with half of that time lost in calms near the Carolines, strengthens the belief that the Helen Brewer may have met with similar mishaps, and is still on the way to Delaware Breakwater. A rough measurement on the map of the world—Mercator projection—using the four months' run of the Juteopolis as a basis, would bring the Helen Brewer somewhere in the neighborhood of Madagascar, and with the additional length of time over to the credit of the Helen Brewer, the latter vessel may now be somewhere in the Atlantic slowly making her port. The Helen Brewer's long stay in southern waters and tropical ports may also have given her a heavy coating of barnacles and grass such as adorns the Juteopolis, another good cause for retarding progress.

In Honolulu at least belief in the Brewer's safe arrival is firm. As late as Saturday, two bets on her arrival were cabled to San Francisco.

NEW RULES FOR CHINESE.

The Immigration officials here have received copies of the new regulations relating to Chinese exclusion. The rules were issued by the Department of Commerce and were prepared by Commissioner Sargent.

These rules designate what Chinese persons are permitted to land at ports of the United States under the provisions of the laws and treaties, together with the ports at which Chinese other than Chinese diplomatic and consular officers may land, and name the officers who have been vested with the power and authority heretofore conferred on collectors of customs, giving their stations and jurisdiction.

Conditions are named to which every Chinese person seeking admission into the United States under the provisions of the act of 1902 for the purpose of taking part in any fair or exhibition authorized by Congress shall conform as a condition precedent to such admission.

Regulations governing the arrest and deportation of Chinese unlawfully within the United States are included. All told there are sixty-one rules embraced in the new regulations. Accompanying the regulations are laws and treaties relating to the exclusion of Chinese.

Provision is made for a Bertillon record of all Chinese laborers arriving and departing at ports of entry, copies of such registry to be transmitted to the commissioner general of immigration.

Conditions are prescribed to which every Chinese person claiming the right of transit through the United States to foreign territory must conform as a condition precedent to being allowed such privilege. Numerous changes have been necessary in the revision of these rules to make them conform to the transfer of jurisdiction over the subject from the treasury department to the department of commerce and labor. Forms of blanks are prescribed and rules made to govern the officers charged with the enforcement of the exclusion laws.

LIGHT INTER-ISLAND TRAFFIC.

Several steamers of the Inter-Island Company's fleet arrived in port yesterday with light cargoes and with but few passengers. Sugar cargoes are now a rarity, and the dull season for freight carrying is apparent.

Purser Friel of the steamer W. G. Hall reports the Mikahala at Wainea with 1090 bags of K. S. M. sugar aboard. The Hall met with strong winds and choppy seas in the Kauai channel. Two horses and six hogs were included in the cargo. The Iwalani's purser reports the Noeaur at Koloa discharging, but the vessel arrived in port from Kauai early yesterday morning.

BAKER NOT ON THOMAS.

Captain Verling K. Hart, 17th U. S. Infantry, has been assigned as army quartermaster aboard the transport Thomas, vice Captain Jesse Baker, who has been ordered to report to the Quartermaster-General for other duty. Baker has been a frequent visitor in this port.

SHIPPING NOTES.

The Custom House will be closed today.
No cargoes will be worked at the island steamer wharves today.
The barkentine Irmgard sailed yesterday morning at 11 o'clock for San Francisco with 11,500 bags of sugar.

The Globe Navigation Company's sign has been removed from the Brewer building and the company has abandoned the Hawaiian trade.

The Nebraskan sailed yesterday afternoon about 4 o'clock for San Francisco. She carried a small amount of mail and a large cargo of sugar.

THE SYMPATHETIC AMERICAN.

A London paper tells an excellent story in connection with the sentries in front of Buckingham palace. It appears that their custom of meeting face to face for a moment and then separating without a word, having cut each other dead, is a continual source of discomfort to sympathetic Americans. One morning a visitor from the States found it too much for him. "Come, boys," he said soothingly, "make it up." Whether the sentries responded to this touching appeal and flung themselves sobbing upon each other's bosoms is not recorded.

BASEBALL AVERAGES TO DATE

The following figures show the batting and fielding averages of baseball players who have played in five or more games this season. The figures are official as supplied by Lorrin Andrews and date up to this morning. Knight of the Elks has dropped to second place in the batting, leaving Kiley at the top, while his one error spoils the pretty look of his 1000 fielding average. Steere still keeps an unblemished record at third base, and White, catcher for the Mailes, has his shield still unsmirched.

The pitchers' records make interesting reading, the differences of style showing clearly. Joy has the highest percentage of strike outs with Castle at the other end. The latter shows at the top, with the smallest percentage of bases on balls. Perine follows him closely, but Reuter and Joy have been far more generous. At base hits off delivery the four men are bunched very closely and may be considered as on even terms.

The Mailes show up splendidly in fielding, with top notchers as catchers, first baseman and two tied at 1000 for outfield work. Moore of the Elks leads the second baseman with Steere second, a showing on paper that would place Steere as a better third, than second baseman, although he has only made three errors all told. The speedy Ensue heads the shortstop but droops down when playing the third bag.

The records follow:

WHAT IS PAIN BALM?

Chamberlain's Pain Balm is a liniment and, while adapted to all the ordinary uses of a liniment, has qualities which distinguish it from other remedies of this class. Pain Balm is especially beneficial for rheumatism. Thousands of cases can be cited in which it has effected a cure when the sufferer had previously tried the best medical service without securing relief. Pain Balm is positively guaranteed to give relief in the most severe cases of chronic or acute rheumatism. Pain Balm heals bruises, burns and scalds in less time than any other treatment. It is "antiseptic" that is, it prevents putrefaction and by so doing, generally prevents an unsightly scar remaining after the injury is healed. For lame back, lumbago and neuralgia, Pain Balm has no equal. It has the quality of "getting to the right spot." No sufferer from these distressing affections should defer a trial of this remedy. One application gives relief. Try it. Benson, Smith & Co., Ltd., Wholesale Agents sell it.
